## At a Fraction of the Cost

You can put one Flyer on your very own web page or you can put any number up to ten Flyers on your very own web page. All pages are pdf pages. Your Flyers can be enlarged or shrunk down for easier reading or printing.

That means you can put the same number of Flyers your Program, Product or Service requires. This lets you tell your complete story or furnish all the important details about your items.

You could put a 10-page catalog together using your web page. You can have as many web pages as you like and from 1-Flyer up to 10- Flyers in each one.
